## **TGO Community Enquiry Database 2018**

Date	Time	Mode of contact	Complaint regarding	The complaint	Action Taken
26 Feburary 2018	11.30am	Phone	Property damage	That Blasting from TGO was causing damage to their property in Peak Hill.	Complainant was advised in writing that it was physically impossible for TGO to cause damage to a property so far away, given the results from blast monitoring on site. The matter was also referred to Department of Planning should complainant wish to take the matter further.
13 March 2018	11.15am	Phone	Dust	That dust at night time was causing a nuisance at residence during southerly wind conditions.	Complainant was advised that the site is complying with its dust emission requirements and that there other sources of dust in Tomingley and surrounds apart from the mine.
29/08/2018	9.00am	Phone	Community	That UHF radio traffic from site was interfering with farming operations at Peak Hill.	Complaint was investigated and considered to be as a result of UHF signal travelling further due to location and elevation of work area on WRE3. Contractor has been using the same channel for over 4 years. Channel has been changed to avoid any clash with surrounding land owners.
